

27419-24 RAAC

NIAS IG REF: 27419-24

Good Afternoon

I would advise that the NIAS is a pre-hospital organisation and therefore we do not manage hospital building or provide acute patient care.

This would fall under the remit of each individual Health & Social Care Trust operating within Northern Ireland as detailed below:

Northern Health & Social Care Trust
Belfast Health & Social Care Trust
Western Health & Social Care Trust
South Eastern Health & Social Care Trust
Southern Health & Social Care Trust

I would suggest making contact with each of the FOI leads in the above Trust's (emails addresses will be available via their websites) and they should be able to assist you further.

The information requested is not held by the NIAS.

Kind regards

Information Governance Officer

Subject: Freedom of Information Request on the subject of RAAC

Dear Sir / Madam,

I am writing this letter to you in regard to my Welsh Baccalaureate individual project. In my Welsh baccalaureate individual project I am researching to what extent does RAAC (Reinforced Autoclaved Aerated Concrete) affect the United Kingdom? I am wondering if you could respond to the following questions?

1. How many hospitals are affected by RAAC concrete in your health board?
 2. How many wards and patients are affected by RAAC concrete?
 3. How much money do you spend monthly to make sure that hospitals and hospitals wards to ensure they are safe to use?
 4. How do you ensure patients safety when in a ward that contains RAAC concrete?
- I know that your time is limited and valuable but it would be highly appreciated if you could answer these questions.
