Download defibrillator data

This data set provides location, availability and access type data of all defibrillators with a guardian registered on The Circuit and consented to share data on <https://www.defibfinder.uk>. The data has been provided in good faith by the registered guardians. The file is updated at the beginning of every month. It is being shared here to support potential funders, such as Local Authorities or charities, in making decisions on where to place defibrillators. It could also be used by academics or researchers in the field of out-of-hospital cardiac arrest and the community response. This data should not be used for commercial or marketing purposes.

Terms and Conditions

This data is not intended for use in an emergency. If you witness a cardiac arrest you should call 999 immediately and they ambulance service can provide you with assistance, including informing you of the location of the nearest defibrillator.

This data is not to be used for commercial and/or marketing purposes.

This data is not to be used for the creation of an App for the public. Please see defibfinder instead for the most up-to-date information.

I agree to the above Terms and Conditions

Download

Click to agree Terms and conditions then click Download.

This will then send a spreadsheet of ALL UK wide defibs.

Just set a filter for your organisation.
