

Dear

I would advise that the NIAS is a pre-hospital organisation and therefore we do not operate an acute hospital service to the public in terms of hospital specialties and ward /associated treatments. This would fall under the remit of each individual Health & Social Care Trust operating within Northern Ireland as detailed below:

Northern Health & Social Care Trust
Belfast Health & Social Care Trust
Western Health & Social Care Trust
South Eastern Health & Social Care Trust
Southern Health & Social Care Trust

I would suggest making contact with each of the FOI leads in the above Trust's (emails addresses will be available via their websites) and they should be able to assist you further.

The information requested is not held by the NIAS.

Kind regards

Information Governance Officer | Northern Ireland Ambulance Service

Site 30 | Knockbracken Healthcare Park | Saintfield Road | Belfast | Northern Ireland | BT8 8SG |

Subject: Freedom of Information Request

Dear FOI Officer

Please respond to all the below points under the Freedom of Information Act.

The number of patients at your NHS Trust in each calendar year since and including 2019 who were treated for:

- a) rickets
- b) scurvy
- c) lice infestations
- d) typhoid
- e) scarlet fever
- f) tuberculosis
- g) cholera
- h) whooping cough

This response has been prepared for disclosure log publication. Only minor editorial or redaction amendments have been made for clarity and compliance with data protection legislation. The substantive content is identical to that provided to the requestor and the original issued version remains the authoritative record.
