Subject: Chief Complaints of Alcohol/Drugs

Request: **Date Received:** 07/10/2015
 Monitoring Date: 08/10/2015
 Date of Response: 22/10/2015

Thank you for your request for information received on 7 October 2015 and which was dealt with under the terms of the Freedom of Information Act 2000. We would also inform you that Northern Ireland Ambulance Service (NIAS) Health and Social Care Trust has now completed its search for the information you requested and which is detailed below and attached for your ease.

Question 1

A list of ambulance callouts the Northern Ireland Ambulance Service has responded to so far this calendar year ie 01/01/2015 to 07/10/2015 when the chief complaint was related to alcohol or drugs. Please detail:

- (a) The date of call (DD/MM/YYYY)
- (b) The time the call was received
- (c) The chief complaint ie alcohol, cocaine overdose/heroin overdose
- (d) Location flag

Answer 1

As previously advised and discussed on 7 October 2015, alcohol is not a chief clinical condition but is a social aspect that may cause a patient to fall, be sick etc. We do however have a free text field known as "What's the Problem" and we have pulled out the associated chief complaint with text that contained beer/brandy/cider/drink/drunken/intoxicated/JD Brandy/under the influence/vodka/whiskey. This data has been provided in the attached Excel spreadsheet labelled FOI-111. As you will also appreciate a caller may not advise that alcohol has been taken at the time an emergency call is received. We have included, date/chief complaint/day/identified as drink or drink and drugs from reading the text in "What's the Problem". This relates to the calls that a response attended an incident.

This data should be used in a cautionary manner as it will in no way reflect accurate information relating to alcohol due to the recording mechanism.

In relation to drugs, as previously advised we only have a chief complaint of Overdose/Poisoning and which will include accidental overdoses such as drinking bleach, potentially legal highs etc. We do however have a free text field known as "What's the Problem" and we have pulled out the associated chief complaint with text that contained drug related words. We have included anti-depressants, aspirin, blues, cannabis, cocaine,

co codamol, cytaloprim, diazepam, drugs, herbal, heroin, K2, ketamine, legal high, librim, marijuana, meth, methadone, mixture of, overdose, paracetamol, spice, synthetic, tablets, tab, tramadol. This data has been provided in the attached Excel spreadsheet labelled FOI-111. As you will also appreciate a caller may not advise that drugs have been taken at the time an emergency call is received. We have included, date/chief complaint/day/identified as drugs or drink and drugs from reading the text in "What's the Problem".

This data should be used in a cautionary manner as it will in no way reflect accurate information relating to drugs due to the recording mechanism.

I hope the above and attached fully assists you. If you are dissatisfied in any way with the handling of your request, you have the right to request a review.
