

Sometimes
you can see
what we
write down
about you

How we use your information

Ask mum,
dad, the
person who
is looking
after you or
one of us, for
help

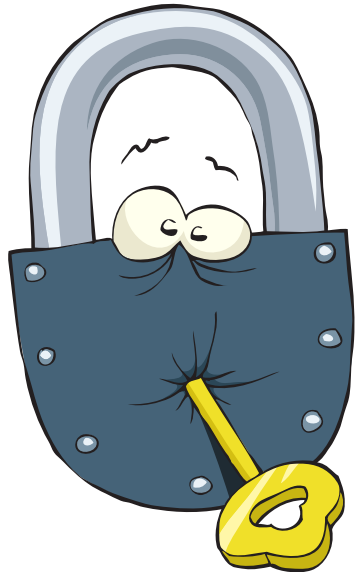

We need your information to take care of you

We will talk to you, or your mum or dad, or those that look after you

We will keep your information safe

We will only use it for as long as we need to and only discuss it with people who need to know
