

COVID-19 Notice

Sunday 22 March 2020

Seasonal Flu Vaccination

Please find attached the most recent HSC Staff FAQs which were sent to you on 18th March, 2020. As you can see there is currently no vaccine available to prevent COVID-19 but work is ongoing to develop this.

However it is recommended that as many staff as possible get the seasonal flu vaccination as it may help to clarify the diagnosis if you become unwell with flu like symptoms. At present, 60% of NIAS operational staff have taken up the offer of the vaccine and Peer Vaccinators are still available to ensure as many staff as possible receive the vaccine.

Can I ask anyone who would like to receive the Flu Vaccine to contact me as soon as possible and we will arrange the vaccination as a matter of urgency? Please remember that the Flu Vaccination will protect you, your colleagues and your family from seasonal flu.

Regards

Laura Coulter
