## A&E Support/PCS Services

The current demand for ICV support has fortunately been less than expected at this time. There is however an increasing demand for Patients requiring Patient Care Services. To meet this demand a number of PCS crews will move back to NEAC from Friday 1/5/20.

This will also provide an opportunity to release some Independent Sector resources for some well-earned rest. As we are all aware this is a very fluid situation and we will keep this under review and respond accordingly to demands placed upon us.

We would like to thank all our own staff for readily agreeing to change shift patterns at short notice and continued thanks to the Independent Sector for their continued support. Thanks also to both EAC and NEAC Control Centres for managing a changing fleet during the crisis.
