

29 February 2020**COVID-19 update**

The Public Health Agency (PHA) has received notification that the one presumptive positive case of COVID-19 in Northern Ireland has now been confirmed by reference laboratory.

The family has asked that their privacy is respected at this time given the personal impact of this issue.

Northern Ireland now has full access to the NHS 111 helpline service on coronavirus. Callers should press 1 when they are advised. This service is provided in Northern Ireland solely for coronavirus guidance and not for other conditions.
